FURTHER SUCCESSES

REPORTED FROM MANCHURIA.

War Party Urges the Emperor to Continue the War—German Gun-Makers Busy.

London, June 20.—Reports from Manchuria continue to tell of further successes by Oyama in many more or less important engagements.

OPPOSED TO PEACE.

St. Petersburg, June 20.—The war party has by no means surrendered. On the contrary, backed by the military element, it is making concerted efforts to persuade the Emperor from concluding peace. Even with the armies already cowering, they are disseminating optimistic views and Linewitch and his lieutenants are reinforcing their arguments with rosy reports of the strategic situation. Fears are expressed as to what will happen to the army of a million disbanded men.

MAKING MANY GUNS.

Berlin, June 20.—The war in the Far East is causing such a demand for ammunition that German artillery manufacturers are overrun with orders. Krupp has orders for three hundred guns monthly for two years.

CZAR RECEIVES DEPUTATION.

St. Petersburg, June 20.—The Emperor received a Zemstvo deputation today. The reception occurred at Peterhoff. Prince Troubetzkoy, president of the Zemstvo congress of Moscow addressed the Emperor in a lengthy speech in which he described the serious conditions existing in Russia, which have caused the Zemstvos to approach his majesty directly. The Prince spoke for half an hour and the Emperor was much impressed. Pederoff, representing the St. Petersburg delegation, also spoke. His majesty replied expressing deep regret at the great sacrifices consequent on the war and above everything the disaster to the Russian navy.

LACROSSE TO-NIGHT.

The second game of the lacrosse series between Edmonton and Strathcona will be played this evening in Strathcona. As all who saw the game here last week will remember, the two teams were evenly matched, the play resulting in a tie. Tonight the local team say that they are in far better shape than before and expect to win the game.

The line-up for Edmonton will be as follows: Goal, Harper; point, Harris; cover point, Morris; 1st defense, H. Milne; 2nd defense, Glass; 3rd defense, McQueen; center, Thom; 3rd home, Walsh; 2nd home, Cook; 1st home, Stewart Milne; outside, Banford; inside home, Kerr.

THE CITY MARKET.

Editor Bulletin.

I was approached yesterday by a farmer, who asked me if it was true that the city council had instructed the market clerk, to have all teams and loads removed from the market square in reasonable time. I understood that the city council have acted on a petition from interested parties, which it was their privilege to do, but as a rate payer, I do not approve of the petition, nor of the action of the council, because of the fact that the citizens require the farmers' produce as much as the merchant. And for this reason, I claim that the farmer ought to be allowed the privilege of the market square as before, until such time as it is required for other purposes, or that the city council provide a site to be known as the hay market.

KING ON TRIAL

ON THE CHARGE OF MURDER.

New Trial Ordered by Supreme Court En Banc Opened Here Yesterday.

The trial of Chas. King for the murder of E. Hayward at Lesser Slave Lake in September last, began yesterday before Judge Scott in Supreme Court here. The trial is the second which the prisoner has undergone on this charge. Early in March he was found guilty of the crime and was sentenced by Judge Harvey to be hanged on May 10. A reserve case was however granted the counsel for the defence and in April the Supreme Court en banc granted the appeal thereby necessitating a new trial.

The evidence produced will probably be largely a repetition of that given on the former trial which was published in the Bulletin in full. The theory of the Crown, founded on the evidence formerly adduced, and outlined by the counsel for the Crown, was that Chas. King and Edward Hayward came to Edmonton together last summer, outfitted here for a prospecting trip to Peace river, that they travelled together to Lesser Slave Lake and that there King murdered his companion, burned his body, secured his personal belongings in a slough and tried to dispose of the camping outfit.

The case was investigated by Sergt. Anderson and Constable Low, of the Lesser Slave Lake post. They brought down a large number of Indians from the Lake to give evidence and summoned many well known citizens of Edmonton to testify to having seen the men together here. A large number of articles alleged to have belonged to the missing man were put in as exhibits.

Those witnesses will be recalled during the trial. Messrs. T. de W. MacDonald and J. McKinnon appear as counsel for the Crown, and C. W. Cross and O. M. Piggart for the accused.

YESTERDAY'S HEARING.

At the sittings yesterday the evidence of H. Hayward, brother of the supposed murdered man was taken. He gave an account of the early life of his brother and identified as his several articles which were put in by the prosecution as evidence.

Sergt. Anderson who ferreted out the case was called during the afternoon and was still in the box when adjournment was made over night.

THIS MORNING'S SITTING.

The trial was continued this morning with Sergeant Anderson still in the witness box. His testimony was along the same line as previously. He recalled how he had found all these small articles of evidence which formerly were a web of accusation about the defendant King. He briefly related the search for clues which extended over the better part of a month, how the ashes of the exten-

bones and the buttons of a man's wearing apparel were found in them; how he hired Indians to drain the nearby slough and of the finding of the shoes, and other articles, which were at the first trial identified as belonging to the missing Hayward. Some extra interest was aroused this morning when some articles not produced in the first trial were brought up. These were found buried under leaves and moss near the old camp fire site, the result of a careful search by Sergeant Anderson after he returned north after the former trial.

GERMAN FEELING

EXCITED AGAINST ENGLAND.

Emperor William Appears to Suspect the Intentions of the British Admiralty

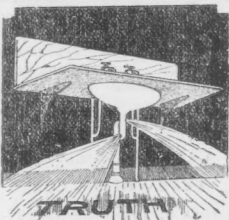

London, June 20.—It is said here that Emperor William is afraid of the English navy, hence the stimulus urging German sailors to bring out the best that is in them. An agreement however, has been reached in the Moroccan affair with France.

SUSPICIOUS OF ENGLAND.

Berlin, June 20.—No adequate view of German feeling can be presented without making a note of the general belief in naval circles here that England is making an excuse to check the progress of German naval armament and that if Germany and France were involved, Great Britain would destroy the German navy. The general opinion is that England means business.

MR. HAULTAIN'S THREAT

While Premier Haultain has as yet declined to announce to which Province he will devote his energies, he has made very clear and emphatic announcement as to how those energies are to be applied and to what they are to be directed.

On the evening of the bye-elections in London and North Oxford, and in subsequent interviews with representatives of the Toronto press, he stated most emphatically that he would carry on in the new Provinces the fight which he began in Ontario. This announcement has been taken up, favorably commented on, and endorsed by the newspaper friends of Mr. Haultain and his present confederates and is now presented to the people of the West as the political program of the honorable gentleman. The people of the Territories must understand therefore that Premier Haultain will enter Provincial politics pledged to the introduction of the notorious question which has separated into hostile camps the people of other Provinces, but from which the Territories have for many years been free, and from which they are now forever free unless the meddling or the spiteful seek to revive a dead issue.

The annals of both parties in every province in which the school question has arisen demonstrate that instead of creating a salutary discussion leading to an amicable settlement it speedily develops into a hurricane of bigotry and prejudice whose path is marked for generations by discussion, resentment and suspicion. The recent campaigns in the constituencies in Ontario have sufficiently proven that this tendency has neither disappeared nor even decreased. The proposal of Mr. Haultain, therefore, involves the introduction into the Provincial arena of a question which must throw into contrast, opposition and finally hostility, the numberless nationalities and creeds of our composite population. During the campaign in Ontario the Mail and Empire, holding that the school clause is not binding on the new Provinces, argues daily that the worst effect of the agitation would be the racial friction created by the discussion. How the Mail and Empire is to justify Mr. Haultain for proposing not only to continue this strife, but to awaken among our diversified people during the infancy of our Provinces, is not clear. Doubtless, however, to that versatile journal this will be no more difficult than it was to argue that while the school clauses were not binding on the new Provinces, the passing of the school clauses would nevertheless be putting those Provinces in bonds.

The people of the West do not want the school question dragged into their Provincial affairs. They are progressive and contented under a school system of their own making, the permanent continuance of which in the Provincial charters, will, they believe on the one hand prevent the establishment of a system containing objectionable elements and on the other hand avoid the projection of an unnecessary and dangerous question into our public life. The present political program of Premier Haultain promises little of benefit to the future of that honorable gentleman.

THE HERALD'S KICK

Calgary Herald: "The Edmonton Bulletin selects every item from Calgary papers that will show the city in its worst light and prints them. The report of the complaints of the ladies to the council about gambling and cigarette sales to minors is published under the heading 'Wicked Calgary.'"

The Herald is not a believer in reciprocity.

The Vote

Free Press: The Conservatives think they scored a moral victory in North Oxford. They point with pride

to the reduction of the Liberal majority as compared with the figures of last November. The Liberal majority was certainly reduced; but this did not result from any falling off in the Liberal vote. There have been three elections in North Oxford since last November on the same lists and the voting on those occasions has been as follows:

	Lib.	Con.	Lib.
Dominion, Nov. 3.....	2768	1266	1502
Local, Jan. 23.....	2880	2378	502
Dominion, June 13.....	2855	2506	349

These figures show no Liberal slump in North Oxford. The falling off of twenty-five from Col. Munro's January majority represents apparently the defection in the constituency. Last November only half the Conservatives polled their votes because they knew they had no chance to defeat Mr. Sutherland; while on Tuesday, stimulated by the hope of a turnover on the part of a couple of hundred Liberals, they turned out to the last man.

The table shows that the stories of Liberal abstention from voting that have been wired from the east are not true. Mr. Smith polled, it will be noticed, 73 more votes than the late Mr. Sutherland did last September. North Oxford shows that Liberals cannot be detached from their allegiance by such arguments as those during the late bye-election campaign. Yet in the hope that they could be captured the Tory leaders have alienated a very influential section of their party—the Conservative Catholics. The net result of this autonomy measure is likely to be disastrous to the Conservative party.

TEACHER'S INSTITUTES

Good Attendance and Lively Interest
—Principal McGill Pleased With His Visit

The Institute meetings held by Principal McGill of the Regina Normal school, closed on Saturday at noon. The meetings were highly successful and beneficial. About seventy teachers were in attendance, including the Edmonton and Strathcona high and public school staffs and visitors from almost all parts of the Edmonton Inspectorate. Principal Thibodeau and staff of five lady teachers from Wetaskiwin, were in attendance.

The program was quite varied and comprehensive. Mr. T. E. Perrett contributed papers on Arithmetic, Geography and Nature Study, with his old-time vigor. Principal McGill presided at all sessions and directed discussion and also gave comprehensive and finished treatment of the subjects, Literature, Reading, Recitation and Class Management and Tactics. He was eminently satisfied with the attitude and energy of local teachers to the work of the institute.

Local teachers contributed to the program. Principal Ramsay gave a practical and useful discussion of the arithmetic of Standards III. and IV. which was well presented and well illustrated. Mr. McGill gave an address on the "Interpretation of Late Educational Movements." It consisted of a review of the ideals that have prevailed in educational work in the past, and sifted down to the conclusion that present indications favored the exercise of the executive along with the intellectual faculties of pupils, the movement seeking expression in the introduction of such subjects as manual training and domestic economy into public school work.

An institute was held in St. Albert on Thursday, but the attendance was not large owing to bad weather. A meeting at Leduc tomorrow will complete the work of the institute of fields in this district.

The ladies of the city staff treated the visitors to ice cream and cake at the close of the session and received cordial approval for their kindness.

CHEAP RATES FOR THE RACERS

The secretary of the Exhibition Association has been informed that the cheap rates usually allowed in the past to race horses attending the Edmonton races will be allowed this year. The rates granted amount to one-half the regular return charges. Application for these rates was first made to the freight department at Calgary, from which the answer was received that the full fare each way would be charged and that this decision was arrived at after consultation with Winnipeg.

The association thereon wired Mr. Whyte on the matter and received the information that the usual rates would be granted from all points west of Winnipeg coupled with the infor-

mation that the Calgary office had not taken up the matter with Winnipeg, and that no instructions had been given any one suggesting any alterations in the rates of past years.

RAGGED BALL

In what was the poorest played game of the season, the Fort Saskatchewan aggregation beat the local baseball team last evening by a score of 11 to 4. The game was full of errors throughout, and with the splendid pitching of McLachlin from the Fort, the visitors were able to pile up the biggest score. The local team goes to the Fort next Friday and it is to be hoped that they will make up for the poor playing of yesterday.

EXHIBITS FOR THE DOMINION FAIR

The Edmonton board of trade intend sending to the Dominion Fair at New Westminster, B.C., in September an exhibit which will be a credit to the district. With the co-operation of the farmers and other residents of the country districts a collection of grains, grasses, fruits and vegetables can be sent which will bear out our claim that Edmonton is the centre of the richest land in Canada. But the assistance of the farmers is necessary. Anyone having a field with a good stand of crop ought to pull up by the roots a nice bunch. A similar bunch pulled up from the same field every two weeks hereafter would demonstrate in a striking manner the rapidity of growth which is taking place.

The board has decided to contribute \$50 to the prize list of the Strathcona fall fair, to be given as special prizes for the best collections of grains, grasses, fruits and vegetables, the exhibits to become the property of the board for use at New Westminster.

It has been suggested that this would be a good chance for the country schools. They should be able to get together some splendid exhibits of grasses, as well as growing grain.

A Wild west Show

A correspondent encloses the following from the Montreal Witness. The "hero" of the incident is said to be an Edmonton Old Timer.

"On Sunday morning, May 14, a most extraordinary incident occurred in Aughrim. As the people were coming down the street from Mass a horse, ridden at high speed, came along. The rider presented a rather picturesque appearance, and his methods were quite in 'Wild West' fashion. He had something like a halter on the animal's head, ornamented with shells, but no bit, and he guided his mount with a piece of a twig steering through the crowds in a manner which would have done credit to a circus performer. He made a halt at the railway station, and a crowd gathering round, the attention of Constable Hunt was attracted. He placed the jockey under arrest, and conveyed both himself and his steed to the barracks. The man gave his name as Herbert Mandeville, Anner Castle, Kilsheelan, Clonmel, but he had not been there for some time, and, according to his own statement he had travelled almost the entire globe. He appears to be most intelligent. He stated he got the mare he rode from a lady in Clondalkin, and was training the horse for her. To all appearance the animal is well-bred. She betrayed bad usage about the legs, which were cut and backed as if she had jumped through a barbed wire fence. Mandeville states the animal won two races recently. She had racing shoes on. The prisoner, who was taken on the suspicion of having stolen the mare, wore good clothes and a Buffalo Bill hat which he had on gave him a rather comical aspect. He carried a quantity of provisions slung across the animal's shoulder, in front of the saddle, and he also carried a large dagger wrapped up in his provision bag.

THREE YEARS
OLD

WHEN the tobacco I have personally selected in Cuba is delivered at my factory, I begin a special treatment to still further cure it—develop its delightful aroma.

This special treatment requires two to three years, depending on the "crop."

I work it thoroughly—through various processes of fermenting and drying in specially made apparatuses that enable me to keep the tobacco in each process at certain fixed temperatures and moist or dry at such a degree of humidity—necessary to bring out the virtues I insist on in each cigar.

By having the filler so aged and treated, I make my Pharaoh a smooth, palatable smoke—one with a delicate incense-like flavor and very even combustion.

The binder and wrapper are the Connecticut Broadleaf and the imported Sumatra respectively—both tobaccos that delight the epicure.

Campbell's Clothing

OUR CLOTHING

is designed to wear and keep its shape and appearance for more than one season, and if you do not find extreme styles in our stock, it is because extreme styles are short lived.

It is a waste to put enduring material and high class work into a garment that will be out of date before it is half worn out.

We aim to meet the requirements of the THRIFTY and SENSIBLE BUYER, who wishes to be well dressed, who wants clothes distinguished by neatness and good taste, instead of merely conspicuous on account of freakish designs.

A large range of Mens Tweed and Summer Suits. Prices run from \$5.00 to \$20.00.

We think we can please you in assortment of styles as well as variety in prices.

This showery weather is just the time you wish for a waterproof coat. Why not buy one of our Cravenette or Showerproof Coats? They are dressy up-to-date styles, comfortable and suitable for any season.

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief items from many sources tell the story of the day's events.

THE MUNROES IN CALGARY.

Calgary, June 20.—C. H. Munroe, of the New York firm of Munroe & Munroe, left Calgary today after a campaign in the interests of Marconi stock sales. One local paper devoted a column to a criticism in which the Munroes were denounced as petty gamblers. The paper concluded with a warning to the public that the Munroes were in the west to skin suckers. Munroe didn't take action.

HAMILTON MURDER.

Hamilton, June 20.—The police, after making inquiry into the death of Fred Fieldhouse, a young man found in a dying condition in the rear of his boarding house, declare that he had been foully murdered. The announcement has caused a sensation and the police have arrested three suspects, companions who left the boarding house with him on Friday, his pay day.

KILLED BY LIGHTNING.

Lindsay, June 20.—A number of severe accidents occurred in this vicinity as the result of the worst thunder storm of the season. Many buildings were struck in Lindsay, the daughter of John Barrett was struck by lightning and killed instantly, and her mother ill in bed was severely burnt.

HALL GAMES.

Winnipeg, June 20.—Yesterday's scores: Duluth 7, Fargo 0; St. Cloud 5, Crookston 3.

SWEDISH PAPERS WANT WAR.

London, June 20.—Swedish Conservative papers openly advocate war. They urge the mobilization of troops and demand the session of northern Norway as compensation to the Swedish people for the dissolution of the union.

JEALOUS JOURNALIST

Victoria, June 20.—C. H. Gibbons, a prominent newspaper man, inflicted nasty wounds on J. K. McCready, a society man, last night with a shot gun. McCready was taking leave of Gibbons's wife, when Gibbons rode up on a bicycle and got busy as aforesaid. No information has been laid against Gibbons, who was actuated by jealousy.

The first ten scores constitute the scores in the Military Rifle League match, of which this is the second in the series of four. As several of the best marksmen of last year's team are unavoidably absent at present, and some have left the city, the scoring is not quite up to the mark of last year in these matches, but it is hoped that better work may be done in the remaining matches of the series. The damage done to the marksmen's pit and target frames by the heavy rains of last week has been repaired, and practice will, therefore, proceed as usual this week.

PROPRIETOR

EARN A Comfortable Living WITH A Chatham Incubator

Poultry raising with a Chatham Incubator is a very profitable and easily managed occupation. Unless you want to go into it extensively it need take but very little of your time. Government reports show that the demand for chickens in Canada is greatly in excess of the supply and Great Britain is always clamoring for more. That means a steady market and good prices for chickens. You cannot raise chickens successfully with a setting hen. She is wasting time setting when she should be laying. While she is hatching and brooding a few chickens she could be laying five or six dozen eggs. The percentage of chickens she hatches is much less than that produced by the Chatham Incubator.

It will pay you to own a Chatham Incubator. Chatham Incubators contain every improvement of importance in incubator construction that has been produced. They are made of thoroughly seasoned wood, with two walls, case within case. Between these walls mineral wool is packed forming the very best insulation. Each piece of the case is mortised and grooved and screwed, making the whole as solid as a rock. Chatham Incubators are equipped with scientifically perfect regulators which are an infallible means of regulating the temperature.

No cash to pay until October, 1905.

We will start you raising poultry for profit with a Chatham Incubator without one cent of money from you until next Fall. That means that you can take off seven or eight hatches and make considerable money out of the incubator before the first payment becomes due.

We couldn't make this offer if we were not certain that if you accept it you will get complete satisfaction. If we were not positive that the Chatham Incubator will pay you a handsome yearly income.

This is a straightforward offer. We make it to show our supreme confidence in the Chatham Incubator. We want you to accept this offer as we are sure of the satisfaction our Incubator will give. Every machine we have put out so far has made other sales in the same neighborhood.

Our offer is to send you a Chatham Incubator at once, freight prepaid by us without one cent of cash from you. You make your first payment in October, 1905. The balance to be paid in October, 1906, or if a Cash Buyer you get it cheaper. Could any offer be fairer or more generous?

Write us to-day for full particulars of our offer and mention this paper. Don't put it aside for another time as this special proposition may be withdrawn at any time.

Hon. Geo Foster Makes Charges but Declines to Assume the Responsibility of Parliamentary Inquiry.

Ottawa, June 19.—Mr. Foster in the House today, said that R. C. MacDonald, of Winnipeg, had obtained half-breed scrip through misrepresentation. Mr. Foster accused a department official of keeping Mr. MacDonald informed of what was going on. Mr. Foster's information was that 25,000 acres of land had been secured at 80 cents an acre. He said that the rumor had reached him that the ex-employee of the department had destroyed documents that might have incriminated him. Mr. Oliver said that the Government would make a thorough investigation and would not shirk anyone.

Mr. Foster wanted to make an attack against the Government rather than to defend the half breeds. Sir Wilfrid Laurier said that if Mr. Foster would make himself responsible for such charges as he had made against an ex-employee of the department, he could have a parliamentary inquiry.

Judge Myers, of Winnipeg, was appointed to investigate the matter in regard to scrip.

In reply to opposition members who were complaining of the expenditures for immigration, Mr. Oliver said that a vigorous immigration policy was what the Dominion required.

WEATHER

The weather had continued quite cool in all districts. Showers occurred in Alta and the western part of Assinibola, and light scattered showers in the southern portion of Manitoba. It is raining in the latter district this morning. The general outlook is more promising, but showers are pending in Assinibola and they may extend into Manitoba.

A Modest Claim

New York, June 15.—Seeking to establish her claim to a \$20,000 estate escheated for three generations by the British Government in 1760, which includes a tract a mile and a half long and a half mile wide through the heart of the city of Quebec, and eight acres of the famous Plains of Abraham, Mrs. Caroline Lambert Campbell, wife of Wm. A. Campbell, an assistant superintendent of schools in Brooklyn, has engaged counsel to push her case in the Dominion and British courts. Says the Herald. Recently she received from Lord Lyttelton, colonial secretary, a reply to a letter she addressed to King Edward, which states that Lord Knollys, the King's private secretary is able to advise His Majesty to take no other action than to suggest that Mrs. Campbell take her claim to the courts.

In 1887 the privy council refused a joint application from representatives of the Catholic church, the Church of England and the citizens of Quebec asking that £30,000 held by the British Government and collected as rentals upon this property, should be equally divided between the two churches in Quebec. The privy council, with the assent of Queen Victoria, decided that the heir would in time appear, and that the property and its usufruct from the time the decree of escheat terminated in 1865, belonged to the heirs of Louis Joseph Lambert, who gave largely of his vast fortune to the French in the French and Indian war. When the English conquered he was deprived of his estate and those of his wife, the demiselle benedictine De Villers who inherited 130 acres in Quebec City from her father. "Where have you been for forty years, Mrs. Campbell?" said Sir Wilfrid Laurier, when Mrs. Campbell visited him twenty years ago. "I know every member of your family and their history, and you were the only missing member." Sir Wilfrid, through his wife, was a collateral claimant to the Lambert estate. The energetic efforts of Mrs. Campbell, only child of the late Leander Lambert of Kingston, N. Y., so far have resulted only in finding many documents which Montreal and Quebec lawyers told her did not exist, or had been lost. Mrs. Campbell's father, Leander Lambert, was the oldest son of Augustine Lambert of Quebec, who removed to Troy about 1830 and died there in 1865. Leander had married and one child, Mrs. Campbell, was born before the young father went to St. Louis on business in 1855 and fell a victim to the cholera epidemic which swept over that city.

The estate is estimated to be worth at least \$20,000,000, but Mrs. Campbell would not come into actual possession of this. It is entailed under the British law, she says, and she would only have a life interest with the right, however, to mortgage the properties.

MADE BY
HAND

I HAVE each
Pharaoh cigar
rolled by hand!
I do this in
order that the
leaves that go
into the filler may be properly
placed, with the top towards the
burning end of the cigar.

It also enables the packing of
the filler to be properly done—
you will find my Pharaoh will
smoke easily and evenly from
end to end!

I see that the materials are
of the highest grade as well.

Cuban tobacco I myself
select from the Manicureagua
district, in the Province of Santa
Clara, is the filler—the most
expensive Connecticut Broad-
leaf is the binder, and a clear,
beautiful Sumatra I import from
Holland is the wrapper.

My Pharaoh makes a
mighty good smoke for the
money.

HOT AIR
FURNACES

If you have any idea of heating your house with hot
air, it will pay you to look into the
"PEASE."

This Furnace is considered one of the very best made,
and when installed by a first class mechanic is sure to give
satisfaction. Ross Bros. are the sole agents for this district,
and they employ none but the best workmen, as some of the
following testimonials from some of our best known citizens
should convince you. We have a large number of these
testimonials, every one of which is from gentlemen who
have used the PEASE FURNACE.

We put a large number in Edmonton during last year,
and in every instance the purchasers were well pleased, and
do not hesitate to speak in the highest terms of them.

Sole Agents for Edmonton ROSS, BROS. Limited.

Ross Bros.,
Gentlemen:—
The hot air heating system that you installed in my house last summer, and which has been thoroughly tested during the past winter, has given me splendid satisfaction. All parts of my house, which are in an exposed position on the west of the river bank, were comfortably heated at all times. The coal consumed during the winter was not large, and it burns the Edmonton coal perfectly. I am very well satisfied with the heating system, and the workmanship and the material used on the job is of the best, and would recommend your furnace to any one.
Yours truly,
MALCOLM GROAT.

Ross Bros.,
Gentlemen:—
Referring to yours re the furnace I purchased from you and which your workmen put in my store (The Hudson Bay Store) I am well satisfied with it. The store is 35 x 40, with a 15 foot ceiling, plate glass front, and when the thermometer stood a 22 below zero the store was easily heated to 90 degrees. The workmanship is first class in every particular. The fuel consumed is small considering the results we get. There is no smoke or leakage of gas, and the furnace is very easily managed. I can heartily recommend your furnace to any intending purchaser, as I am sure there can be no fault found with them.
Yours truly,
JAMES H. WOOD.

Ross Bros.,
Gentlemen:—
Regarding the warm air furnace which you installed in my house. I may say that I am perfectly satisfied with it. I had no difficulty whatever in heating the whole house in all kinds of weather. No heat is wasted in the cellar, and I had no trouble with the pipes not working in windy weather. I find it easy to manage, and economical on fuel, and were I to build again, I would have no other kind of furnace, and I would recommend it to any person wanting one.
Yours truly,
W. H. COOPER.

Ross Bros., Limited,
Gentlemen:—
The furnace you placed in my house last year has given us the very best of satisfaction, and every room in the house is evenly heated, and I find that it burns the Edmonton coal very economically, and is easy to manage and free from dust or gas. I would cheerfully recommend it to anyone.
Yours truly,
KING POWELL.

Ross Bros., Limited,
Gentlemen:—
The furnace you placed in the house I live in (owned by J. N. Pomerleau) has given us perfect satisfaction. In fact we can make it too warm to live in if we were to let the furnace run freely, and have never been troubled with either smoke, gas or dust. I find it very easy to manage, and I am certain we could not keep the house as comfortable with stoves on anything like the same amount of fuel, and would recommend it to any person wanting a good furnace.
Yours truly,
J. B. MERCER.

Ross Bros.,
Gentlemen:—
After using your Furnace all winter it gives me great pleasure to recommend it to any one. I used another make of Furnace for four years in the same house, previous to getting this furnace from you, and find your Furnace a great improvement over the old one. I find it free from dust, gas or smoke, and easy to manage, and that the grate burns the Edmonton coal perfectly. My house is more evenly heated with only a little over half the fuel, and I might say that the material and workmanship in connection with the installation of the Furnace is of the best.
Yours truly,
R. J. MANSON.

Messrs. Ross Bros.,
Gentlemen:—
The Furnace you installed in my house last summer has given me perfect satisfaction in every respect, and free from gas or dust, and find that I get more heat from less fuel out of your Furnace than I could from the old Furnace you took out. Therefore I would cheerfully recommend your Furnace to any person wanting one.
Yours truly,
C. W. CROSS.

Ross Bros.,
Gentlemen:—
The hot air heating system that you installed in my hotel, has proved to be all and more than you represented it to be, and would not change it for the old system if I had to pay double what it cost me, as I find your Furnace only uses about half the amount of coal that the old Furnace used. In fact one Furnace now heats the whole hotel, except in extreme cold weather, while it took both the old Furnaces going full blast all the time to heat the hotel other winters.
I find your furnace not only a fuel saver, but easy to manage, free from dust, smoke or gas, and would be pleased to recommend it to any person wanting one.
Yours truly,
J. J. MELLON, Strathcona.

Western Opinion on Current Events

Maosomin "Spectator": In Alberta there appears to be a strong tendency towards having the Provincial parliament elected on non-party lines, and The Herald is doing its best to regulate the dicta of the Moose Jaw Convention, which declared unmistakably for party Government in local affairs. Mr. Haultain too, favors a continuation of the coalition form of Government, which has been followed in the Territories. Mr. Haultain and The Herald may be successful in regulating former demands of their own party, as well as in proving that their own conversion is purely unselfish, but their success is doubtful. The leaders of a local coalition Government, by taking an active and aggressive part in Federal affairs, are likely to sadly weaken their advocacy of non-party control of Provincial affairs. However, a few months' time will show what the result will be in Alberta. In the eastern Province the strong probability is that when the writs for the elections are issued party candidates will be nominated in each constituency and the contests will be on party lines. And the Conservatives cannot object, as they prettily forced the change.

Moyle Creek Signal: Mr. Bennett of course did not take himself seriously in his impassioned addresses to the electors of London and North Oxford; his talk of rifles and revolution might be funny if it were not such twaddle. Try the Vaudeville stage Bennett.

Nanton News: The howl for non-Partisan Government in the Provincial assembly of Alberta is still going on and Liberals and Conservatives alike are joining in the refrain. Non-Partisan Government is "N.G." Let the Liberals and the Conservatives come out under their own banners and fight the issues to a finish. The condition of things generally, the status of the men taking the leading parts and the minutes of the Moose Jaw Convention all demand a party controversy in the initial parliament for the new Province.

Indian Head Vindicator: The Calgary Herald recently advocated a non-partisan administration for the new province of Alberta. The suggestion has not met with much favor. It is an impossibility and we will have none of it.

Red Deer Advocate: The Advocate will go on record as being able to support Mr. Moore or otherwise, and we do not agree with those who oppose Mr. Moore, because he is Mr. Moore. We have no personal feeling against this gentleman and if we had, we consider that the duty of a cool headed wise citizen is to sink personal likes or dislikes and to exercise his calm judgment on these public matters. We never saw a man yet who was worth his salt who had not his opponents. A man who is clever and superior always has a number of enemies, who are either jealous of his powers, or magnify small differences and personal dislikes into great objections. We refuse to follow others because they support Mr. Moore, and we certainly decline to join others who denounce this gentleman up hill and down dale.

Red Deer Advocate: The Hon. F. W. G. Haultain is reported as saying in Woodstock after the victory of the Liberal candidates, he thought however, "he would be able to carry 'one of the new provinces, in which 'case he assured his interviewer he 'would continue to fight against the 'provisions of the bill". He added the "North West would be sorry the 'elections had gone as they had" and "concluded by saying, you may be 'sure the struggle will be carried 'on". We ask our Liberal friends who are so anxious about a coalition government for this province, with Mr. Haultain at its head, how they like this kind of talk, and if this hard fighting, strong, determined, persistent, partizan, is going the right way to prepare the ground for the coalition Government in a House where at least, in all probability, one half the members will be Liberals. Is this the man of their choice are these party fighting qualities just now so rampantly displayed, the proof of sagacious and wise statesmanship for one who is to gather opposite forces, and centre them round himself as the head of a Coalition ministry? And our Liberal friends will take this lying down will they? As a useful public man we have for Mr. Haultain full respect and appreciation, but for Mr. Haultain as a politician who aspires to lead the heterogeneous elements in the Provincial Legislature, we cannot say much that is favorable.

He cannot continue to be Mr. Facing-both-ways. A man in his position can scarcely lead a fighting rout, and at the same time expect to be chosen for his sagacity and eminent fitness to conciliate opposite parties in the state, with much claim to, or chance of success.

Regina Standard: Solicitor Johnstone was reported last year to have given as his opinion that the hundred thousand dollars worth of merchandise, stored in Mayor Laird's big warehouse, was not subject to taxation. No one believes that Mr. Johnstone gave any such ridiculous opinion, but the goods escaped taxation because of non-assessment, and the city lost some two thousand dollars thereby. So much for a rumor of opinion that was not in writing.

ORCHESTRA CONCERT LAST NIGHT.

The Thistle rink was well filled with a most appreciative audience last evening, who listened with evident delight to the splendid program given by Clarke's orchestra, who were ably assisted by the Messrs. Webster, Messrs. Hanby and Stutchbury, the Plowright Banjo Band and Mr. A. E. Hearn, banjo soloist. The orchestra, under the direction of Mr. W. A. Storey, is an organization that any large city might well be proud of, and they scored a distinct success. The attacks were firm and strong, the phrasing good and ensemble perfect.

There was an absolute freedom from that uncertainty that is so often apparent in the work of semi-amateur orchestras. It is impossible to particularize in the different numbers played, but perhaps the most pleasing was the "Southern Melodies," which was a cornet solo by Mr. Clarke, with orchestral accompaniment. The solo was splendidly played, and the orchestra work in this number was exceptionally smooth and finished.

Mr. S. R. Storey, who played a cornet duet with Mr. Clarke, is a newcomer here. He is a very artistic player and will be a great acquisition to local musical circles.

Mr. Hearn, the banjo soloist, has recently arrived from London, England, and is a master of his instrument. He had to respond to a most enthusiastic encore to his solo.

The Plowright Banjo Club is a new amateur orchestra of banjos only. Mr. Plowright has done wonders in the short time they have been under his direction. They will undoubtedly become a most popular feature at future events.

The four assisting vocalists are too well known to need special comment. Two very much-appreciated numbers, however, were the quartette "Sweet and Low" (Barbry), and "Come Where My Love Lies Dreaming" (Hartson). The first number is an exquisitely melodious part song and the beautiful blending of the four voices, the light and shade, and the singing of the numbers, made it altogether a delightful number.

The second number is not quite so musically perfect, but the attack and finish were very smooth and clean. It is to be hoped that these four artists may form themselves into a permanent quartette. Miss Webster was in splendid form, both in her solo, the Creole love song, with orchestral accompaniment, and in the duet with Mr. Hanby. Mr. Hanby sang that stirring patriotic song, "Lords of the Sea," with great fervor. Mr. Stutchbury's numbers were Blais's magnificent song "The Torador," from Carmen, and Mark's "The Bandit Chief," which were both sung with splendid effect. Altogether the concert was a very decided success.

As the McMaster band continues their work in the city, it becomes more and more evident that they depend not upon noise or sensation or excitement but upon the gospel "which is still the power of God unto salvation to everyone who believes." At the mass meeting on Sunday evening there was no attempt at the mere rendering of a program. The singing in English harmony of the sweet gospel selections by the quartette captivated the vast audience, because the people could not but feel that they were listening to a message from the hearts of Christian men, who were singing not to attract, although their singing was most attractive, not to please although their sacred songs are pleasing in the highest sense, but rather that they might through song bear a message to every heart. The speakers are men of training and broad culture but here again it is evident that they do not appear before their audiences to make a display of culture although those who have attended the services have listened to some rare oratorical flights, to demonstrate that they are men of learning although they are never at a loss to distinguish from science or history the point they wish to emphasize, but that they stand as the messengers of Christ to men who ought to know Him. At the close of the mass meeting a large number asked for prayer and many of them professed conversion.

The meeting last evening although not so largely attended owing to numerous other attractions was one of the best meetings of the series, several signifying their desire for a better life. The members of the band do not bore those who do not wish to converse with them but are most successful in their personal dealings with those who desire conversion. Probably the most striking feature of the mission is the work among the children. Mr. Mitchell the leader in this work understands young life, readily finds the point of contact and in the large majority of cases wins the life for better things, two or three dozen boys and girls over twelve years of age have definitely committed themselves to Christ in his afternoon services whilst a work that cannot be estimated by numbers is being accomplished among the children.

Judging from the interest now aroused, the large number of seeking ones, Edmonton will in the next few days witness the most striking revival of its history.

There was an absolute freedom from that uncertainty that is so often apparent in the work of semi-amateur orchestras. It is impossible to particularize in the different numbers played, but perhaps the most pleasing was the "Southern Melodies," which was a cornet solo by Mr. Clarke, with orchestral accompaniment.
